

EDISON HONORED . . . An exact replica of Thomas Edison's first incandescent light globe, perfected in 1879, lights up as Patti Harrison, "Miss Electrical Week," operates an old time hand generator. The replica was displayed in honor of this week's national celebration of Edison's birthday.

Expanded Needs of Red Cross Outlined by New Fund Chairman

Torrance's 1958 Red Cross Fund appeal—slated to get underway next month—will be directed by Dr. Don Moshos of 1617 Cravens Ave.

Announcement of Dr. Moshos' appointment to this community's top Red Cross fund post was made this week by Jack Cunningham, chairman of the Southern Region's forthcoming campaign.

Chairman of the local Red Cross branch for the past two years, Dr. Moshos assumes the fund chairmanship for the first time, following several years of active work in various capacities. He is also actively affiliated with the Torrance Chamber of Commerce and the Lions Club.

In the course of stepping into his new Red Cross role, Dr. Moshos cited "expanded needs for Red Cross service" as the reason for pursuing expanded funds for the organization.

"Torrance's goal has not yet been definitely determined, but due to increases in blood production, increases in Red Cross education services (such as First Aid, Water Safety, Home Nursing and Mother and Baby Care and the need to replace an exhausted Disaster Reserve fund, we shall seek an expanded goal to correspond with the \$3,600,000 goal set by the Los Angeles Chapter," he explained.

Dr. Moshos makes his home in Palos Verdes Estates with his wife, Bernice, and their five children: Donnice, Donna, Don Jr., Dennis, and Donella. He stated further that names of organization assistants and campaign strategy will be announced very shortly.

2-Way Drag Race Planned

The first annual Two-way Record Runs Drag meet, something completely new for both acceleration racers and fans, will be held Feb. 22-23 on the Lions Associated Drag Strip. It was announced today.

Though never attempted anywhere before, the two-way runs have been planned at Long Beach for more than two years, said Mickey Thompson, events director of the big strip at 223rd St. near Alameda Ave. A re-arrangement of the plant set-up and electronic timing facilities will enable drivers to make averaged runs in both north and south directions.
